## ABSTRACT

Cook, R.J. and S.R. Heizer, 1978. Basic data for the 1976 Canadian chinook and coho catch sampling and mark recovery program. Volume Three: Basic data for each chinook mark recovered. Fish. Mar. Serv. Data Rep. 58: 749 pp.

The Canadian Mark Recovery Program was initiated in 1974 to provide observed and estimated mark recoveries of chinook salmon (*Oncorhynchus tshawytscha*) and coho salmon (*O. kisutch*) in various British Columbia commercial and sport fisheries in tidal waters. This is the third volume of a four part report on chinook and coho mark recoveries in 1976. Virtually all marks recovered in 1976 were adipose fin-clips containing coded-wire-tags. Each marked chinook and the data associated with it are presented here.

Key Words: Ocean fisheries, British Columbia, mark sampling, fin clips, coded-wire-tags, chinook salmon, coho salmon.

## RÉSUMÉ

Cook, R.J. and S.R. Heizer, 1978. Basic data for the 1976 Canadian Chinook and coho catch sampling and mark recovery program. Volume Three: Basic data for each chinook mark recovered. Fish. Mar. Serv. Data Rep. 58: 749 pp.

Le Programme canadien de récupération des marques a été mis sur pied en 1974 pour observer et estimer la récupération des marques des saumons chinook (*Oncorhynchus tshawytscha*) et coho (*O. kisutch*) dans diverses zones de pêche commerciale et sportive des eaux à marée de la Colombie-Britannique. Nous présentons le troisième des quatre volumes de l'année 1976. Presque toutes les marques récupérées en 1976 étaient fixées à la nageoire adipeuse et portaient une étiquette métallique codée. Les données relatives à chaque saumon chinook sont présentées.

Mots-clés: pêche océanique; Colombie-Britannique; échantillonnage par marquage; marques fixées aux nageoires; étiquettes métalliques codées; saumon chinook; saumon coho.

## INTRODUCTION

This is the third volume of a report of mark recovery data gathered by the Canadian Chinook and Coho Catch Sampling and Mark Recovery Program in 1976. The full report includes the following subreports:

Volume 1

- Subreport 1 - Catch, Sample Numbers and Computed Ratios, 1976 (lists weekly summaries for commercial Catch Regions);
- Subreport 2 - Observed and Estimated Recoveries of Marked Salmon in Sampled Canadian Commercial and Sport Fisheries, 1976 (gives summaries by Catch Region, mark and time period);
- Subreport 3 - Georgia Strait Sport Catch and Sport Total Recoveries of Marked Salmon, 1976 (gives monthly catch and mark totals);

Volume 2

- Subreport 4 - Observed and Estimated Recoveries of Marked Salmon in Sampled Canadian Commercial and Sport Fisheries, 1976 (gives summaries by mark, Catch Region and time period):

Volume 3

- Subreport 5 - Canadian Recoveries of Chinook with Coded Wire Tags (lists individual mark recoveries);
- Subreport 6 - Canadian Recoveries of Chinook with Fin Marks (lists individual multiple fin mark recoveries);

Volume 4

- Subreport 7 - Canadian Recoveries of Coho with Coded Wire Tags (lists individual mark recoveries);

Included herein are subreports 5 and 6, providing a full listing of individual chinook salmon mark recoveries. Due to its bulk, this volume is split into Parts 1 and 2 (between pp. 5-342 and 5-343), which are bound under separate covers.

## ORGANIZATION AND CONTENT OF SUBREPORTS

Definitions

In this report, the word "tag" will be used for a fish identification code (e.g. binary code: agency 2, data 8/6, or multiple fin mark: dorsal-left ventral). A "mark" means a fish with clipped fin or missing adipose fin.

Most marks recovered from commercial fisheries were obtained from random samples of catches; these marks are "random marks" or "random recoveries". Other recoveries do not fulfill the condition of random-ness, i.e., voluntary sport returns and selected recoveries from the commercial catch.

Subreport 5: Canadian Recoveries of Chinook with Coded Wire Tags

This subreport lists all random and selected recoveries of individual adipose-marked chinook in Canadian Fisheries. Included are details of the recovery and biological data associated with each fish.

The recoveries are ordered by tag, then by Catch Region, then by Statistical Week and then by date. Recoveries with binary coded wire tags come first, then those with colour coded tags, and finally those with prototype binary tags. These tags are in turn arranged by agency code, then data codes. For colour tags, the order follows that given in Table 1. This table also interprets colour mnemonics. Following these are the fish with no tag data due to pin not found ("PIN LOST"), no evidence of pin ("NO PIN"), or no data ("NO DATA"). Totals of heads with codes and heads without codes (sum of "PIN LOST", "NO PIN", AND "NO DATA") and a grand total of all chinook heads recovered are given following the "NO DATA" section.

Catch Region names are listed in Table 2, giving the order these appear and the British Columbia and U.S. statistical areas comprising them. Statistical Areas, in turn, are delineated in Figures 1 and 2. Table 3 shows the dates of Statistical Weeks for 1976 and the corresponding ending dates used. Statistical Week 99-9 indicates an unknown catch week.

It should be noted that discrepancies occurred in the data. These discrepancies were a difference between the species of a tag at release and the reported species of the recovered tag, or a tag reading of an unregistered code, or a tag partly or entirely unreadable. In these cases the headings indicating "BROOD YEAR", "AGENCY", "HATCHERY", "RELEASE SIZE" and "RELEASE SITE" are blank, and this constitutes a flag for data discrepancies.

For brevity, most of the data is given in codes. Table 4 deciphers the codes found under each column heading. One particular note is that any sub-area given may not always be the exact location of capture; but even though approximate, subarea is a more precise delimiter. Subarea names were shortened due to lack of space. The mnemonics and their full names are presented in Table 5.

There also exists a credibility code (cols. headed "CRED"), which may be deciphered from Table 4. This may give additional insight into data discrepancies. Credibility code 6 denotes heads from the Tofino-Ucluelet sampling location that were made select because fewer than 95% of the heads from each sample were received at the lab for dissection. The samples were made in Tofino or Ucluelet and the fish were then shipped to Vancouver for further processing. Vancouver samplers were often unable to pick up the sampled heads because of the practise of selling fish head-on.

#### Subreport 6: Canadian Recoveries of Chinook with Fin Marks

Individual random and selected recoveries in Canadian fisheries of multiple fin mark chinook, other than adipose-only, are listed in this subreport. Detailed information on recovery and biological data for each fish are included.

The listing is by multiple fin mark, in the order given in Table 6. Within each mark, the tags are ordered by Catch Region (as in subreport 5), then by catch week.

The remarks made for subreport 5 regarding Catch Regions and codes also apply to subreport 6.

#### ACKNOWLEDGEMENTS

Many people worked hard and long to collect this information. We would like to thank all the samplers and the lab and office support staff for their excellent and dedicated work.

The Mark Recovery Program would especially like to thank all members of the EDP staff for their work in processing the MRP data.

| WIAH PT    | C | Wiah Point and Rose Spit to Two Peaks         |
| WOODLANDS  | A | Woodlands to Jalun River                      |

Table 6. Order of sorting of fin marks, 1976.

| Fin Mark Number | Fin Mark                           |
|-----------------|------------------------------------|
| 001             | AD (not included in fin mark list) |
| 002             | AD/D                               |
| 004             | AD/D/RM                            |
| 007             | AD/LV                              |
| 008             | AD/LV/RV                           |
| 010             | AD/RV                              |
| 011             | AD/LP                              |
| 012             | AD/RP                              |
| 014             | AD/RM                              |
| 016             | D/LV                               |
| 017             | D/LV/RV                            |
| 018             | D/RV                               |
| 019             | D/LP                               |
| 020             | D/RP                               |
| 023             | AD/LM/RM                           |
| 024             | AD/D/RP                            |
| 028             | AD/LV/LM                           |
| 029             | AD/RV/RM                           |
| 030             | AD/RP/LV                           |
| 032             | AD/RP/LM                           |
| 034             | AD/D/RP/LM                         |
| 035             | AD/D/RV/LM                         |
| 036             | AD/LV/RM                           |
